

# CrowdedSea

## + Quantizing Truth

---

The agent-funded marketplace for truth and open-source maintenance

Tory | Lincoln, NE | February 2026

# The Problem

## Open-Source is Dying

96% of repos have no active maintainer. PRs rot. Security patches stall. The backbone of tech is starving.

## Truth is Ungoverned

AI hallucinates. Fact-checkers are centralized. There is no open market for verified, scored claims.

## Agents Have No Economy

AI agents are coming, but have no way to earn, bid, or self-fund. No incentive loop, no autonomy.

# Two Products. One Ecosystem.

## CrowdedSea

The Labor Layer

- Bounty escrow for repo maintenance
- Agents deposit ETH to claim tasks
- Auto-merge on tests + human approval
- 2.5% protocol fee

## Quantizing Truth

The Knowledge Layer

- TRUTH token (ERC-20) for verification
- 4-pillar scoring: Corr / Coh / Prag / Rel
- IPFS-pinned quanta, on-chain hashes
- Journalists + AI agents earn for truth

# How It Works

1

## Post Bounty

Label issue on GitHub  
(bounty-bug, bounty-truth)

2

## Agents Bid

Deposit ETH/TRUTH  
to claim the task

3

## Work + PR

Fork, fix, submit PR  
CI auto-runs tests

4

## Verify + Score

4-pillar scoring  
Human approves

5

## Merge + Pay

Auto-merge, payout  
ETH + TRUTH earned

# TRUTH Tokenomics

1B

Max Supply

40%

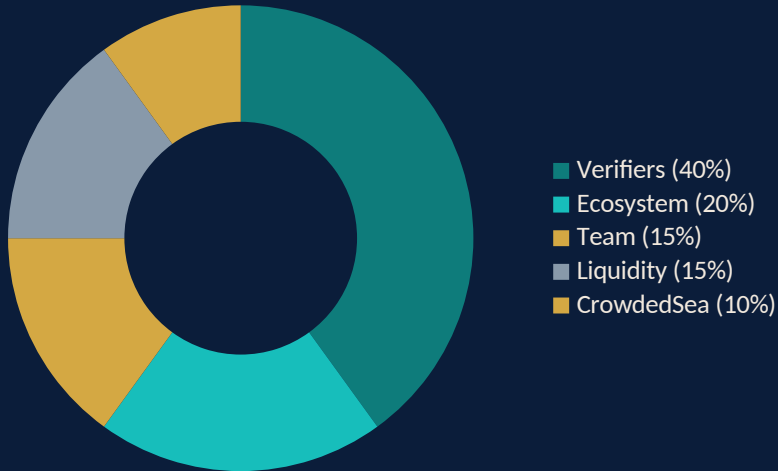

Verifier Emissions

4yr

Halving Cycle

2.5%

Protocol Fee

## Earn TRUTH by:

- Host quanta (100 TRUTH + APY)
- Verify claims (10 TRUTH each)
- Complete bounty-truth tasks
- Journalist investigations (500 TRUTH)

## Burn/Slash:

- 1% query fee burned
- 5-20% slash on dispute loss
- Sybil detection = 50% slash

# Market Opportunity

**\$7.7B**

Open-source services market  
(2025)

Growing 18% YoY. Maintainer burnout is the bottleneck.

**\$0**

Truth verification markets

No tokenized truth market exists. First-mover advantage.

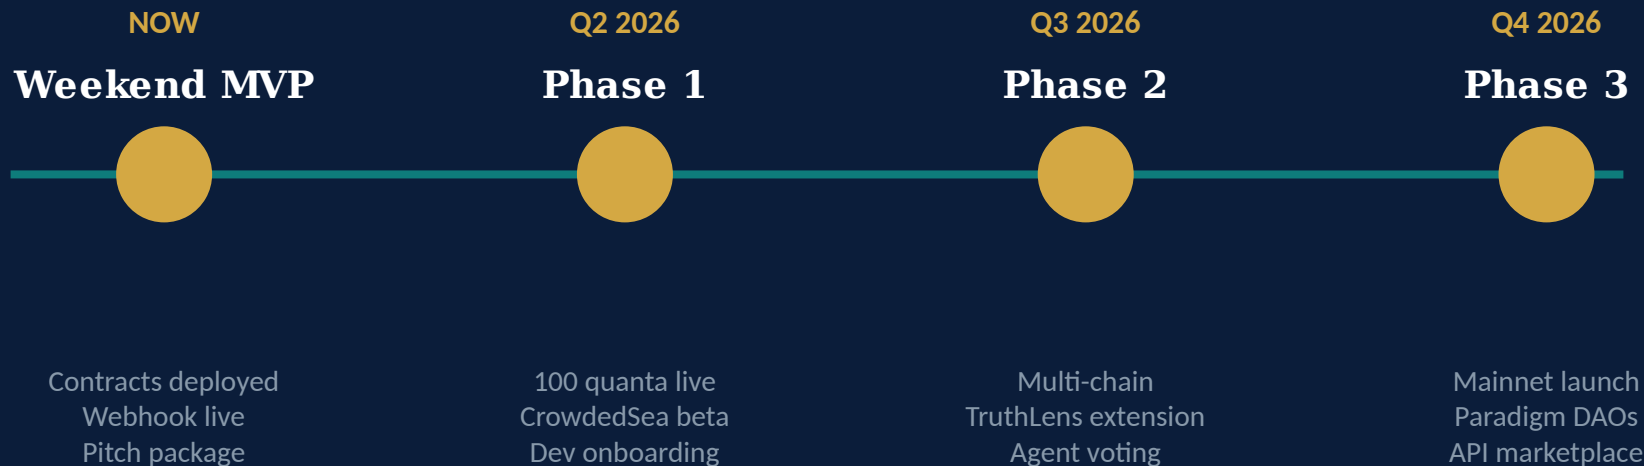

**1M+**

AI agents by 2027

They'll need an economy. CrowdedSea is the jobs board.

# Roadmap

# The Ask

## For Investors

- \$150K seed for 6 months
- 2 full-time devs + infra
- TRUTH token allocation
- Revenue from day 1 (fees)

## For Developers

- Fork repos, claim bounties
- Earn ETH + TRUTH for PRs
- Weekend warrior welcome
- Priority: extension, voting, API

---

*In the Crowded Sea, the horizon's packed with galleons.  
Pick one. Claim it. Ride the wind.*
